ECO  
PET  
FELT

# Acoustic Felt Ecological PET

At least 70% recycled materials

Verified suppliers

Certified quality

Modern design

Effective sound attenuation

Flame-resistant material

# PANELS

## OF PET FELT

Made of **70% recycled** material.

Approximately **120 PET bottles of 1-liter** capacity are required to produce one panel.

Produced **in Poland**, resulting in a lower carbon footprint.

Fire-resistant material, **tested and certified** by a polish construction product certification unit.

## ACOUSTIC PANELS - COLOR PALETTE

Colors available for  
**12 mm felt** thickness.

NOTE: The product may vary in color or shade from the images displayed on the website. Returns due to such differences are not possible.

# V-CUT

## AESTHETICS AND FUNCTIONALITY

Modern technologies open new possibilities in interior decoration and lighting. In our factory, we implement comprehensive projects combining lighting with panels, including the option of engraving. Using V-cut methods, the panel gains depth and unique texture, while also reducing vibration transmission and minimizing resonance at the installation site.

### STYLOWE

Add elegance to your interior

### SOUND-ABSORBING

Effective sound attenuation

### ECO-FRIENDLY

70% of materials used are recycled

## V-CUT ACOUSTIC ECO PET PANELS

**Get inspired and discover unlimited design possibilities with our acoustic panels**

- comprehensive design of sound-absorbing spaces that positively impact health
- wide selection of ready-made patterns for transfer
- custom projects implementation

# V-CUT ACOUSTIC ECO PET PANELS

We offer precise cuts in three different widths:  
8 mm, 12 mm, 16 mm

**PATTERN SQUARES**

**SHAPE CUT WITH HOLE**

**PATTERN HEXAGON**

**PATTERN DIAMONDS**

**EDGE SINGLE-SIDED**

**PATTERN LINE**

**PATTERN WAVE**

**EDGE DOUBLE-SIDED**
